

## East Six Residents

---

We designed the turkey as a creative outlet for public expression  
And all of your comments help add to the great culture of this floor  
East Six prides itself on fostering a sociable community

We recognize the humorous intent of your comments  
But those regarding women's bodies have undermined  
The welcoming environment we have worked so hard to create

Understand that your comments **do ostracize** other individuals

East Six is the most admired floor in Wilson  
People frequent this space because they prefer our company

Remember that as a resident you are the driving force behind this culture  
Be welcoming and help cultivate **memories worth sharing**

---
